

ACTIVITIES

TOPIC: What if...?

Objective: to produce well-constructed informational texts by applying the grammar and writing process correctly.

1. Answer this question.

What will happen if we do not change our habits with the environment?

2. Read the following text.

3. Observe the use of zero and first conditionals.

<p>Scientists all around the world have warned about the terrible consequences for our survival if we do not start changing the way we use natural resources.</p> <ul style="list-style-type: none">a. If population growth continues this fast, there will not be enough food for everybody in the future.b. If we have high CO₂ concentration levels, the sun's heat does not go back into space and stays on the planet.c. If the sun's heat stays, it produces a greenhouse effect and global warming.d. If humans destroy ecosystems, many species lose their homes forever. Now, two in five amphibian species are at risk of extinction.e. If farmers do not stop using toxic chemicals on crops, many pollinator insects will disappear. In some regions, one in ten insect species are in danger of extinction.f. If we do not reduce plastic use, our oceans will have more plastic items in them than animals.g. If the temperature of the planet increases, ice from the poles will melt and disappear.h. If the ice at the poles disappears, many cities on the coasts will be flooded.i. If we start doing something now, we will avoid a sad future. <p style="text-align: right;"><i>Reese, 2009; Watts, 2019</i></p>	<p>Grammar Tips</p> <p>The zero and first conditionals are used in English to describe situations that happen or will happen in the future.</p> <p>Zero Conditional: Facts, scientific laws, habits, instructions, and rules. <i>If the sun's heat stays, it produces a greenhouse effect and global warming.</i></p> <p>First Conditional: Probable result in the future for actions in present. <i>If the temperature in the world increases, ice from the poles will melt and disappear.</i></p>
